D. PROJECT CONSTRUCTION	

#### D: PROJECT CONSTRUCTION

**Building/Facility Type:** e.g., adult residential facilities (ARFs), residential care facilities for the elderly (RCFEs), Permanent Supportive Housing (PSH) that serves the needs of seniors and adults with disabilities (including models that provide site-based care, other residential care settings that serve the target population, including recuperative or respite care settings, or mixed-use:

Adult residential facilities (ARFs)

**Type of Project:** e.g., predevelopment, new construction, acquisition, renovation to expand capacity, adaptive reuse:

**New Construction** 

Current License Status: e.g., in good standing, pending, N/A:

In Good Standing

**Target Population(s):** Describe the population that you are intending to serve, which should include Qualified Residents experiencing or at risk of homelessness, in accordance with your application for Program Funds.

This project will provide 30 units to the target population of 100% SSI/SSP and CAPI applicants or recipients who are at risk of or experiencing homelessness. The proposed project will invest in behavioral health and community care options that advance racial equity by creating an adult residential facility program exclusive to Native American females. The service will be open to all Native American females regardless of the county. With this new service, it will lower hospitalization, homelessness, and institutionalization of Native Americans.

The proposed project will create community capacity of Native American females. Substance abuse and addiction are major concerns among Native American females. Results from the 2018 NSDUH show that nearly 1 in 5 Native American adults (ages 18-25 years) has a substance use disorder, including 11% with illicit drugs and 10% with alcohol. California has the largest number of Native Americans of any U.S. state, with a population of 757,628. Of that number, 10% of Native Americans have a substance use disorder which roughly translates to 75,762 individuals who are eligible for SUD Services.

### **E: PROJECT SCOPE REQUIREMENT**

This section may include the project narrative, from Sponsor's application (Question No. 24), updated to include revisions made to finalize Sponsor's final award of Program Funds. This section should include the following 1) goals of the Project, 2) overall timeline, activities, and milestones, and 3) how you plan to conduct outreach to the intended target population of Qualified Residents experiencing or at risk of homelessness in order to serve them through the Project.

#### Goals:

The New Tribal ARF Female at Best Life will service up to 30 native females per year. The residential treatment provided will be for intense alcohol and drug treatment for the individual to maintain sobriety. Our residential treatment will include substance abuse assessment, observation, individual and group substance abuse counseling, 12-step groups, mental health assessment, life skills training, vocational assessment, training, and recreational activities.

The facility will also serve native females needing assistance with mental health. The facility will be a licensed ARF providing long-term care and assistance with ADLs.

#### **Overall Timeline, Activities, and Milestones:**

PFA Execution: October 2023

Construction Drawings Completed: December 2023 Break Ground/Construction Start: March 2024

Finish Construction: September 2025 Start Operations: December 2025

#### Outreach:

Native Directions will begin comprehensive cultural sensitivity training for all outreach staff to ensure the staff approaches individuals with respect, understanding, and knowledge of specific tribal customs, traditions, and challenges. The Sponsor will partner with local tribal leaders, Native American community centers, and health clinics in California to discuss the needs of the homeless population and garner support for the program. Additionally, the Sponsor will partner with other homelessness-focused and Native American-focused organizations in California to broaden outreach.

The Sponsor is partnered with the Native Directions' Community Outreach Resource Education (C.O.R.E.) who will oversee navigation services for qualified tribal males experiencing or at risk of homelessness. The project will engage with Native Directions Inc.'s existing contacts and networks to disseminate information about the residential facility. The Sponsor will host events in areas with higher populations of Native Americans, partnering with local radio stations, newspapers, and community newsletters specifically catering to the Native American audience. Additionally, the Sponsor will launch mobile units to visit remote communities and reservations. These units can offer immediate assistance, information on the residential facility, and connections to other resources.

Native Directions will establish a Tribal Advisory Group which will include local Tribal leaders, County staff, Tribal Health Programs, and Indian Health Services. The Advisory Group will be tasked to provide recommendations on how to prioritize local residents without excluding those in need.

HomeCA and Native Directions met and established a relationship with Miwok Tribe Health and Wellness Center, who have expressed their desire to refer clients to HomeCA to provide housing for their clientele. Native Directions is also a member of the CCUIH, California Consortium of Urban Indian Health and they are eagerly waiting to give referrals to HomeCA. Additionally, Native Directions existing referral stream includes contracts with San Joaquin County to provide SUD services required by the court and referrals from the hospitals within San Joaquin County.
